COLLEEN SHIELDS, PRINCIPAL

## Valentine Summer Math Program

Dates: Wednesday, June 12th - Wednesday July 3  
Time: 9:00 AM- 11:30 AM  
Location: Valentine ES Classrooms  
Staff: Nancy Allen, Judy Mau, Kathe Smiley, Tina Nott, Heather Floyd,  
Kelly Duncan  
Consultants: Staff of the UCSB Math Department

During the Summer Math Program we will be using materials from the mathematics program "Contexts for Learning Mathematics". This math program is a series of 24 units for grades K-6 on the topics of number, operation, and algebra. Each unit consists of a three-week sequence of investigations, games, routines, and mini lessons designed to support the development by students of deep conceptual understanding of mathematical topics. Students will be involved in solving fun and engaging mathematical problems that require them to be able to explain, justify and support their thinking. We will be selecting one unit for each grade level for our 3 week summer program.

After our students leave each day, our staff will be collaborating together with staff from the UCSB Math Department as we analyze our student's mathematical thinking, plan for the next day's lessons, and share ideas on implementing some of new instructional strategies we are learning. The UCSB staff will also be modeling lessons and interacting with our students as they solve mathematical problems.

Please complete the attached registration form and return it to the Valentine office. Space is limited in our classes.

Colleen Shields, Principal

**PLEASE ENROLL MY STUDENT IN the Valentine Summer Math Program  
Wednesday, June 12th- Wednesday, July 3  
No Fee  
9:00 AM- 11:30 AM daily**

**We will be videotaping students and staff during the math lessons. The videotapes will be used by our staff as part of the daily lesson studies that our teachers will be involved in each day. Registration in the Valentine Summer Math Program will include the requirement that parents sign an agreement allowing your child to be videotaped as part of our lesson studies.**
