

Home Access Center: Change Password

Tomball ISD has turned on the feature in Home Access Center that allows the parents to change their passwords to something that might be easier to remember. To change their password, the parents will need to log into Home Access Center and click on My Profile in the left-hand menu. A screenshot has been provided below. If for some reason the parent has forgotten their password and their security questions, the parent can contact the Campus Registrar to have them print out the HAC Notification Letter for the parent with the password on it.
