

DELAWARE STUDENT HEALTH FORM – CHILDREN

PreK- Grade 6

To be completed by licensed healthcare provider:

Physician (MD or DO), Clinical Nurse Specialist (APN), Advanced Practice Nurse (APN), or Physician's Assistant (PA)

To Parent or Guardian:

In order to provide the best educational experience, school personnel must understand your child's health needs. This form requests information from you (Part I) and your health care provider (Parts I, II, and III). All students in Delaware public schools must provide documentation of current immunizations and a current (within 2 years) physical examination upon school entry. A physical prior to 9th Grade is strongly recommended for school year 2012-2013 and will be a requirement for school year 2013-2014.

Talk with your health care provider about these other important issues¹ regarding your child, such as:

- School** (readiness or adaptation, after school, parent-teacher communication, maturity, performance, special services)
- Mental and Physical Activity** (healthy weight, well-balanced diet, physical activity, limited screen time)
- Emotional Well-Being** (family time, social interactions, self-esteem, resolving conflicts, friends)
- Physical Growth & Development** (dental care, healthy eating, puberty)
- Injury & Illness Prevention & Safety** (seat belt or booster seat, bicycle safety, swimming, sexual abuse, guns, fire safety, supervision, sunscreen, internet, infection, disaster planning)
- Immunizations**
 - **Influenza (seasonal) vaccine** is recommended **each year** for **all children** (6 months and up).
 - **Human papillomavirus vaccine (HPV)** is recommended for all girls and boys (ages 11 or 12, minimum age 9) to prevent cancers, pre-cancers and genital warts.
 - **Hepatitis A, Meningococcal and Pneumococcal vaccines** are recommended for certain high risk groups.

Immunization Requirements for Newly Enrolled Students at Delaware Schools

KINDERGARTEN²: **DTaP:** At least 4 doses. The last dose must be given on or after 4th birthday
Polio: At least 3 doses. The last dose must be given on or after 4th birthday
MMR³: 2 doses. The 1st dose must be given on or after the 1st birthday. The 2nd dose must be given after the 4th birthday.
Hep B³: 3 doses
Varicella⁴: 2 doses. The 1st dose must be given on or after the 1st birthday and the 2nd dose at kindergarten entry.

GRADES 1-6: **DTaP/Td/Tdap:** At least 4 doses. The last dose must be given on or after 4th birthday
Students who start the series at age 7 or older only need a total of 3 doses. *A booster dose of Td or Tdap is recommended by the Division of Public Health for all students at age 11 or five years after the last DTaP, DTP or DT dose was administered whichever is later.*
Polio: At least 3 doses. The last dose must be given on or after 4th birthday
MMR³: 2 doses. The 1st dose must be given on or after the 1st birthday. The 2nd dose must be given after the 4th birthday.
Hep B³: 3 doses. For children 11 to 15 years old two doses of a vaccine approved by CDC may be used.
Varicella⁴: 2 doses. The 1st dose must be given on or after the 1st birthday and the 2nd dose at kindergarten/school entry.

¹ Based on Bright Futures: Guidelines for Health Supervision of Infants, Children and Adolescents, (3rd ed.) AAP, 2008

² Children who enter school prior to age four shall follow current Delaware Division of Public Health recommendations.

³ Disease histories for measles, rubella, mumps and Hepatitis B will not be accepted unless serologically confirmed.

⁴ Varicella disease history must be verified by a health care provider to be exempted from vaccination.

CHILD'S NAME _____

PART I – HEALTH HISTORY

To be completed by parent/guardian prior to exam.

The healthcare provider should review and provide comments in the shaded column.

Name: _____ Gender: _____ DOB: _____

Date: _____ Examiner: _____

To be completed and signed by parent/guardian and evaluated by health care provider
