

## Section 10-2

# Generating Electric Current

# Electricity Generation

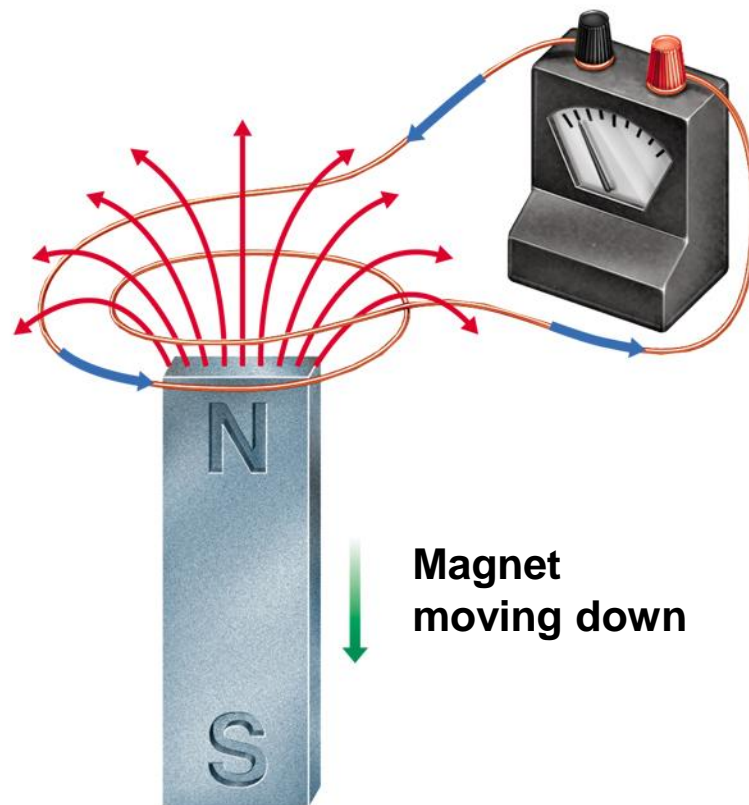

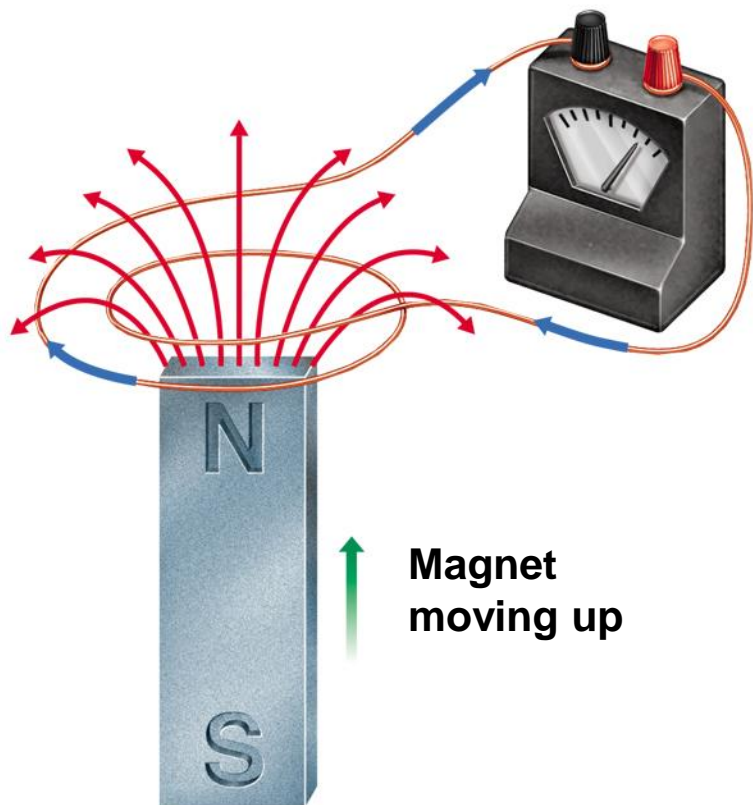

**In a series of steps, write down what you did this morning to get ready for school. Step 1 should be “woke up” and the last step should be “walked out the door.”**

**Next to each step, write down the electrical appliances you used.  
(Hint: Step 1 Woke up: alarm clock)**

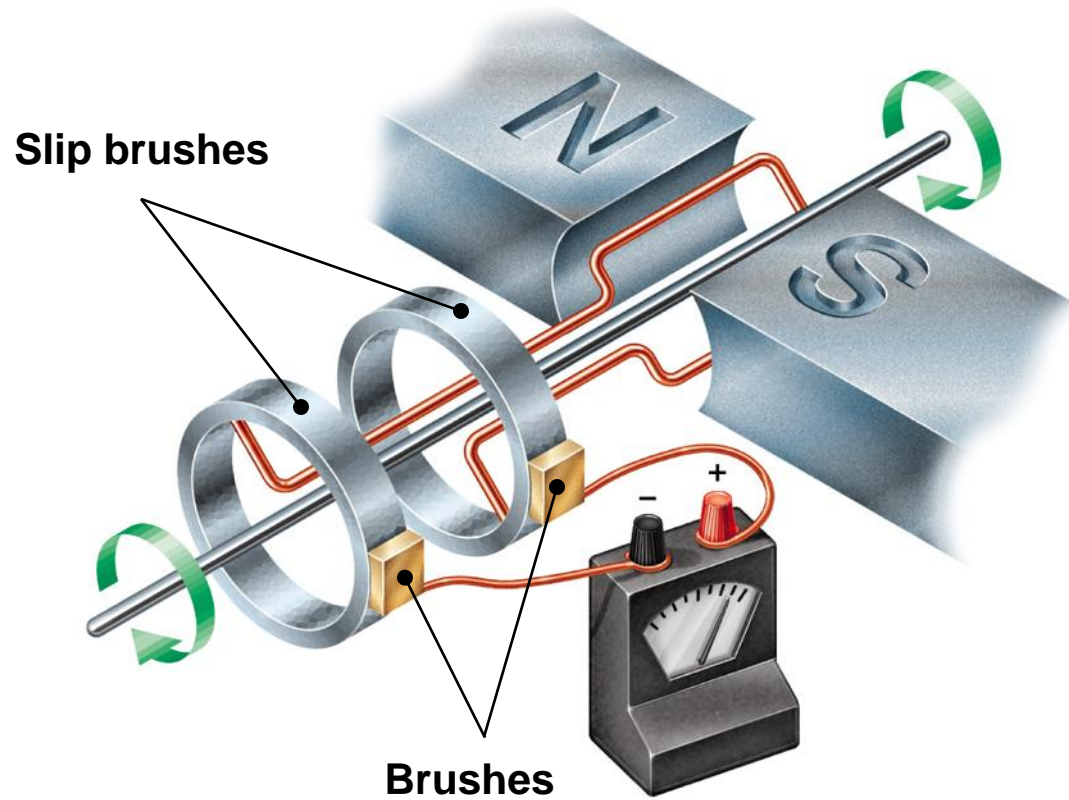

**Describe how your morning routine would have been different if you had not had these appliances.**
