

Vocabulary/Theorem/Postulate/Definitions Quiz Study Sheet  
Geometry – Chapter 2

Name: \_\_\_\_\_

Period: \_\_\_\_\_

Know the definitions of each word below and be ready to provide an example

Inductive Reasoning

Deductive Reasoning

Conjecture

Counterexample

Conditional

Converse

Inverse

Contrapositive

Hypothesis

Conclusion

Biconditional

Proof

Theorem

Postulate

Be ready to state the Postulates/Theorems below and be able to draw a picture which illustrates the post/thm

Angle Addition Postulate

Segment Addition Postulate

Linear Pair Theorem

Congruent Supplements Theorem

Congruent Complements Theorem
