

Worksheet - Atoms

Name \_\_\_\_\_

Period \_\_\_\_\_

Date \_\_\_\_\_

Use the given periodic table to complete the table below. Remember that the atomic number is always the top number above the element's symbol and the mass number is given below the element's symbol/name. Later you will learn why the mass number is never a whole number. Please round the mass number to the nearest whole number for this assignment.

Element	Symbol	Atomic #	Mass #	# Protons	# Neutrons	# Electrons
	N					
Sodium						
		38				
	W					
				35		
Silver						
			96		54	
Lead						
						53
	Mg					
		28				
				5		
						18
			39		20
