Geometry/Theorem/Postulate/Definitions Quiz Study Sheet  
– Chapter 3

**Define the definitions of each word below and be ready to provide an example**

Parallel Lines

Perpendicular Lines

Transversal

Alternate Angles

Corresponding Angles

Interior Angles

Exterior Angles

Same-Side Interior Angles

Perpendicular Bisector

Rise

Run

Slope

Point-Slope Form

Slope-Intercept Form

**Be able to state the Postulates/Theorems below**

Alternate Angles Postulate AND its Converse

Interior Angles Theorem AND its Converse

Exterior Angles Theorem AND its Converse

Transversal Theorem And its Converse

Parallel Lines Theorem

Parallel Lines Theorem (slopes)

Parallel Lines Theorem (slopes)
