

Name \_\_\_\_\_ Period \_\_\_\_\_  
 Famous Scientist

You will write and illustrate a children’s book to teach your classmates about your scientist. Your book should be informative and show that you know a great deal about your scientist. Your book should have all of the qualities of good children’s books-entertaining, informative, and fun to look at. You may do a digital version of your book or a more traditional “print” version. Some options might include PowerPoint, Word, Publisher, storybird (website), or other similar programs or websites.

Here is how you’ll be graded:

Criteria	Points	Comments
The content of the book is accurate and reflects ALL of the guiding questions.	1 2 3 4 5	
The words in the book are your own and are not plagiarized (copied) from an article or other source.	1 2 3 4 5	
There are at least 10 pages in the book.	1 2 3 4 5	
There is a title page with a title, illustration, and your name (the author).	1 2 3 4 5	
The text is typed and free from spelling and grammatical mistakes.	1 2 3 4 5	
The text of the book is organized and has a good “flow.”	1 2 3 4 5	
There are neat, colorful illustrations/pictures on each page. The illustrations are related to the information on the page.	1 2 3 4 5	
The text and illustration fill the entire page.	1 2 3 4 5	
The book is either sent in e-mail (if online), or printed and placed in a cover.	1 2 3 4 5	
The overall look of the book is neat, and organized. It looks inviting and makes me want to read it!	1 2 3 4 5
