

Mission Statement:

Pathways Charter School provides an individualized, home-based, independent study educational option to self-directed students from diverse backgrounds in grades K-12 living in five North Bay Area Counties.

The library, being the coordinating agency for the materials that support Pathways' curriculum, seeks to serve and be responsive to the needs of its community by being a provider and a partner in education.

To that end, The Pathways Library will provide organized storage and retrieval service to support the diverse educational and professional needs of the Pathways Community.

The Library seeks to provide equitable access for all regions to a balanced collection of books and other materials that serve students' educational needs, parents' instructional needs and teachers' professional needs.

Vision Statement:

The Pathways Library System seeks to become an essential support system for the Pathways community, providing for the educational needs of its students and their families, and the professional needs of its teachers.
