

How to Make Accents

Hold down the "option" key and the accent code key simultaneously (see below for the guide to which key, with "option", makes which accent). Release, and, type the key of the letter (usually a vowel, excepting the "c" cedilla) on which you would like the accent.

- * **accent aigu (é)** option + e
- * **accent grave (à)** option + ` (the key at the top, left of the keyboard)
- * **accent circonflexe** option + i
- * **accent tréma (ë)** option + u
- * **cédille (ç)** option + c
- * **guillemets français (« »)** option + \ , option + shift + \
