

Name _____

VIDEO 19-0

We need to make sure your Pearson account is working properly. Tonight you need to log-in to the website and watch a very short video. Usually a worksheet will go with the video, but tonight's worksheet is very simple.

REMEMBER:

1. The information is in the front of your agenda (in the notes section)!!
 2. If it doesn't work, make sure you capitalized the correct letters. (You capitalize the first letter in your last name. If it does not work try it with a lowercase.)
 3. If it still isn't working, you don't need to email me. Just come tell me before class begins.
-

Steps:

1. Open your account on Pearson. Don't forget, this information is in your agenda. Everyone's password is Mcintyre1 (1st period) or Mcintyre4 (4th period)
 2. Click on the right side of the screen on the word Explore (by the pencil).
 3. Scroll down and click: Topic 19 (with the Statue of Liberty).
 4. Click: 19-00 Graphs and Data Introduction
 5. Click: View
 6. Click: Play
-

While watching the video, answer these questions:

1. How many feet tall is the statue of liberty? _____
2. How many steps do people take while there? _____
3. What were the titles on her table? Bugs Found, _____, _____
4. The _____ is the number that appears the most often in a set.
5. _____ is the middle data value in an odd-numbered set.
6. _____ is the difference between the greatest and least values.
