

Learning Style Survey

Due: Wednesday, August 20

Format: Hard copy printed out for class

Purpose: Success as a learner

1. Using the URL below, please take the learning survey. **Print out a hard copy of the results AND also print out the top two percentages of the type of learning style you have, (or three) if you have a tie.** To print out the explanation of each learning style and learning tips, click on the link at the bottom of the results page titled "Learn more about each learning style." Turn your results page, with your name written on the top, in to the homework box on Wednesday, August 20, so you get credit. We **need** all students to participate for an extension activity we will begin on Thursday, August 21st
2. Do not deliberate too much when you answer the questions. Your first instinct is probably the best choice. The entire survey should take approximately five minutes or less.
3. On the last page of the survey, you may indicate that this is a school assignment.
4. Your results will indicate a breakdown of eight learning styles. We will use this information to gather strategies of how to be a more efficient, effective learner.
5. If you do not have access to the Internet at home/library/friends' houses/etc., you may come after school on Tuesday, August 19th or before school on Wednesday, August 20th and use my computer. It is best if you can do this assignment outside of class if possible.
