

Board Policy Development

It is the intent of the Board to develop policies and put them in writing so that they may serve as guidelines for its own operations and for the successful and efficient functioning of the public schools.

The Board considers policy development one of its chief responsibilities. Proposals regarding policies may originate with a member of the Board, the superintendent, a staff member, a parent, student, consultant, civic group, or any resident of the district. A careful and orderly process shall be used in examining such proposals prior to action upon them by the Board. The Board shall take action after hearing the recommendations of the superintendent and the viewpoints of persons and groups affected by the policy.

The policies of the Board are framed and meant to be interpreted in terms of state laws and regulations and other regulatory agencies within our state and federal levels of government.

Changes in needs, conditions, purposes, and objectives will require revisions, deletions, and additions to the policies of the present and future board. The Board will welcome suggestions for ongoing policy development.
