

# Patty Reed's Doll Model Project

Name\_\_\_\_\_

I would like you to create a model from an assigned chapter of Patty Reed's Doll.

- 1) The materials that you use to create your model need to come from anything you can find in your home—remember, you cannot buy any new materials to build your model...rather, reuse other materials.
- 2) If you cannot find certain materials for your model, you can trade with other classmates.
- 3) The ideal size of your model could be the size of a shoebox but no larger than the surface of your school desk.
- 4) In addition to your model, you need to include the following information:

~Chapter # and Chapter Name

~A Summary of the Chapter, Including Main Events, Character, Setting

~How you felt this chapter represented pioneer life.

I encourage you to be as creative as you can with your model and the materials used.

You will be assigned to Chapter\_\_\_\_\_

This Assignment is due\_\_\_\_\_

Have Fun!
