## Outline

- I. Introduction
  - A. Hypnosis is the induction of a state of consciousness in which a person apparently loses the power of voluntary action and is highly responsive to suggestion or direction. Despite the loss of voluntary action, a person under hypnosis remains in one-hundred percent control. One would have thought otherwise due to media's portrayal of hypnotism including so called stage hypnotists. In fact, hypnotherapy is used world-wide to treat ailments and even to improve abilities such as memory, focus, and awareness. In the novel *Brave New World* by Aldous Huxley, the D.H.C. states "The principle of sleep-teaching, or hypnopaedia, had been discovered" (25). The D.H.C. was referring to an improved form of modern day hypnosis which consists of repeating audio statements to children as they sleep. These statements are permanently engraved into their mind and become a part of how they think. Research has shown that positive effects can result from "hypnopaedia" used in today's world.
- II. Body
  - A. Positive & negative effects of hypnosis
    1. Topic sentence that supports thesis statement – Often times people are skeptical of hypnosis due to their ignorance of the practice.
    2. Positive effect #1 – Hypnosis helps people overcome their fears
      - a. "Quote" (Author's Last Name pg.#)
      - b. Explanation – Hypnosis is one way for people to confront their fears head on without hesitation.
    3. Positive effect #2 – Hypnosis can help ease pain
      - a. "Quote" (Author's Last Name pg.#)
      - b. Explanation – Hypnosis is one way for people to confront their fears head on without hesitation.
- III. Conclusion

Hypnosis is the induction of a state of consciousness in which a person apparently loses the power of voluntary action and is highly responsive to suggestion or direction. Despite the loss of voluntary action, a person under hypnosis remains in one-hundred percent control. One would have thought otherwise due to media's portrayal of hypnotism including so called stage hypnotists. In fact, hypnotherapy is used world-wide to treat ailments and even to improve abilities such as memory, focus, and awareness. In the novel *Brave New World* by Aldous Huxley, the D.H.C. states "The principle of sleep-teaching, or hypnopaedia, had been discovered" (25). The D.H.C. was referring to an improved form of modern day hypnosis which consists of repeating audio statements to children as they sleep. These statements are permanently engraved into their mind and become a part of how they think. Research has shown that positive effects can result from "hypnopaedia" used in today's world.

**Research Paper Requirements (this is what I look for before reading your paper):**

1. 1” margins all around
2. Times New Roman or Arial
3. size 12 Times New Roman OR Arial
4. Must have at least 6 sources listed on your Works Cited not including *Brave New World*
5. Must have at least 10 different quotes
6. Each quote must be properly cited using parenthetical citation for example: (Huxley 24)  
or (“The Most Effective Forms of Birth Control” ¶ 10) or In Aldous Huxley’s novel  
*Brave New World*, he states “the purple fox jumped over the hen” (24)
7. Must be double space
8. Header with Last Name and page numbers, top right corner
9. Title page (1<sup>st</sup> page) = 1 page for the research paper: size 12, Times New Roman or Arial,  
centered, single spaced
10. Formal Outline = 1 – 2 pages for the research paper, single spaced
11. Formal research paper = minimum of 4 typed pages, double spaced
12. Works Cited (last page) = 1 page for the research paper, double spaced
13. Manageable Time Chunks:
  - Thurs., June 5 – Fix outline, introduction and thesis statement, works cited page, set-up  
header, title page
  - Fri., June 6 – type sections A and B from outline
  - Sat., June 7 – type sections C and D from outline
  - Sun., June 8 – type sections E and Conclusion, re-read to check for misspelled words and  
make grammar corrections
  - Mon., June 9 – turn in paper ☺

14. Due date times: first 10 minutes of class time

- Period 1      8:00 – 8:10
- Period 2      9:01 – 9:11
- Period 3      10:15 – 10:25
- Period 5      12:56 – 1:06
