Name_____ Date_____ Period_____

Saint Damien and Kalaupapa

Final Assessment

We have spent the last few days looking at Hansen's disease, Kalaupapa on Moloka'i and Saint Damien. This was done through PowerPoints, discussions, looking at various photographs in class and watching clips from the video *Moloka'i: The Story of Father Damien*. You probably started this lesson with little knowledge about this subject. But now you should be very knowledgeable. Time to prove what you know!

Directions: Take out your binder paper that you wrote your answers to the question, "What was life like on Kalaupapa during the time of Father Damien?" Review what you wrote. Then, in the space below write down your final answer to that question. Make sure to use all the knowledge you have picked up about the topic. You can use additional sheets of paper if more space is needed. ***Also, staple the binder paper with your original answers to this question to this paper before turning it in.*** Good luck!
