This is how one 5th grade student responded to an assignment to depict life here at our fabulous school.
This highly creative student made a comic strip to show a day in the life of a 5th grader here at Solomon.
This student is showing what it is like to be a lunch helper at Solomon Elementary.
This student has captured what it is like their first day at Solomon. As you can see it is very easy to make friends! 😊
Me and my friends at Solomon Elementary school.

My school isn't always fun alone.

But with my friends... everything Rocks!

We play basketball. A lot! Together.

When one of us has trouble... we help each other.

Like I said, it's not always fun alone.

But lunch is Delicious.

And we stick together.

The End.
This is a student picture of her favorite beach here on Oahu. Hawaii has plenty of beauty to offer!
A collage done by a student titled “I Serve Too.”
This is a glimpse into a book created by a student here at Solomon. The book is about a boy who is PCSing to Hawaii. We here at Solomon give this aspiring writer two thumbs up for creativity! 😊
Things About Hawaii That I Want Families To Know
By: A 5th grade student

The four things I want parents to know about Hawaii are the amazing shaved ice, pineapple ice cream, resorts, and Solomon Elementary School. You can find the best shaved ice at the North Shore. My favorite flavors are Blue Hawaiian, Blue Raspberry, and Passion Fruit. Depending on the place, you can get two or three different flavors. At North Shore, you can get three different flavors. Also, in the winter, you can surf really huge waves because the temperatures are warm all year round. At North Shore, they sometimes hold big surfing competitions. You can find the pineapple ice cream at the Dole Plantation near North Shore. You can also get toppings with the vanilla ice cream. The resorts down in Ko‘Olina, like the Disney resort ‘Aulani, have beautiful beaches in their backyard. There are also some apartments near the resorts, which are near the beaches too.

Solomon Elementary School is, in my opinion, the best school there is in Hawaii. Some of the food at Solomon is really good, like the fish hoagie, chicken nuggets, fish nuggets, and chicken strips. Grades 3 and up get to pick their own lunch. The teachers at Solomon are really nice too. In 5th grade, we learn about writing, envision math, social studies, and science. At recess, we have tetherball, basketball, hula hoops and jump rope. At lunch, if your class behaves well, your class gets a lion. A lion is a prize that you get if you are good. If your table is good for over fifty school days, you might be able to get a pizza party. During lunch, we have cups red, green, and yellow. The red cups are if your class is behaving bad or very loud. The red cup means that your class does not get recess. The yellow cups serve as a warning so you don’t get too loud. The green cups mean that your class is behaving and is using library voices. My teacher Ms. Lee is a very nice teacher and teaches us what we need to know to be successful in school. If we are good and get our work done on time, sometimes we get to play Bingo. Ms. Lee also gives us projects to prepare for middle school. JPO, or Junior Police Officers, help the school prevent accidents and children from getting hurt. JPO is a privilege for very good students and to stay in it, you must not get a TCN. A TCN is a Teacher Communication Notice and if you get one, you may not participate in clean card. Clean card is also a privilege that if you don’t get a TCN for the quarter, you get to participate in a fun activity. Here at Solomon, the grades are different from the mainland. They are split up into four categories: ME, MP, DP, and WB. ME means meeting excellence or exceeding proficiency or that you are passing with flying colors. MP means meeting proficiency which means that you are passing with a good grade. DP means developing proficiency, which means that you need more practice. Finally, WB means well below proficiency, and that you need to improve your grade by a lot. There is a thing called a think sheet. If you get 2 of these in a quarter, you also can’t participate in clean card. You get a think sheet because you are behaving badly but not too badly. And this is what I want families to know about Hawaii.
