

## **Physics Extra Creds...**

### **Science Article**

Find a science-related article, bring it to class, summarize for the class, state the source and date.  
Credit = 10% added to a low quiz, class assignment, or homework grade.

### **Chapter Outline**

Pick a chapter in the textbook that we have not yet covered, read it, and write a thorough outline containing all the important points, definitions, and equations from each section.  
Credit = 20% added to a low quiz, class assignment, or homework grade.

### **Linear Motion Make Up Test**

Make up the Linear Motion test up to a 75% - it's not the same exact test but it basically assesses you on the same major concepts.

### **Make Up Binder Checks**

Make up the last 2 binder checks if you have received lower than a 70%.
