### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit and each major fund of Global Leadership Academy Charter School as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. **GLOBAL LEADERSHIP ACADEMY CHARTER SCHOOL  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2014**

The Board of Trustees of Global Leadership Academy Charter School ("the School") offers readers of the School's financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with the School's financial statements.

**Financial Highlights**

- Total revenues increased \$565,645 to \$8,608,511 primarily due to increases in the student subsidy from the School District of Philadelphia.
- At the close of the current fiscal year, the School reports an ending general fund balance of \$4,736,065. The fund balance increased \$445,223 from the previous year end.
- The School's unrestricted cash balance at June 30, 2014 was \$3,111,642 representing an increase of \$170,176 from June 30, 2013.

**Overview of the Financial Statements**

The discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements as presented comprise four components: Management's Discussion and Analysis (this section), the basic financial statements, budgetary comparison and Single Audit reporting requirements.

***Government-Wide Financial Statements***

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the School's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The *statement of activities* presents information showing how the School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements report on the function of the School that is principally supported by subsidies from school districts whose constituents attend the School.

***Fund Financial Statements***

A *fund* is a group of related accounts that are used to maintain control over resources that have been segregated for specific activities or purposes. The School, like governmental type entities, utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The School has two fund types: the governmental general fund and the proprietary fund.

***Notes to the Financial Statements***

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2014**

**Governmental Funds**

The focus of the School's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending for program purposes at the end of the fiscal year.

The School's governmental funds reported an ending fund balance of \$4,736,065. For the year ended June 30, 2014, the School's revenues totaling \$8,184,380 exceeded expenditures totaling \$7,739,157 by \$445,223.

**General Fund Budgetary Highlights**

Actual revenues exceeded budgeted revenues by approximately \$190,000 due to federal sources. Actual expenditures exceeded budgeted expenditures by approximately \$250,000 primarily due to non-instructional services.

**Capital Asset and Debt Administration**

***CAPITAL ASSETS***

As of June 30, 2014, the School's investment in capital assets totaled (\$156,313) for its governmental activities and \$37,442 for its business-type activities (net of accumulated depreciation and related debt). This investment in capital assets includes land, building and improvements, furniture, equipment, software and vehicles.

Major capital asset purchases during the year included the following:

- Capital expenditures of \$39,841 for furniture and equipment (governmental activities)
- Capital expenditures of \$11,397 for furniture and equipment (business-type activities)

Additional information on the School's capital assets can be found in Note 3 of this report.

***LONG-TERM DEBT***

The School issued long-term revenue bonds through Philadelphia Industrial Development Corporation in the amount of \$13,875,000 for the acquisition and construction of its school facility in 2011. The School also has a note payable related to equipment acquired totaling approximately \$112,000. During the year ended June 30, 2014, the School repaid \$180,000 of the bonds and paid \$29,878 towards the note.

Additional information on the School's debt can be found in Note 4 of this report.

**Economic Factors and Net Year's Budgets and Rates**

The School's primary source of revenue, the student subsidy provided by the School District of Philadelphia, will have a rate decrease for regular education from \$8,417 to \$7,996 and a rate increase for special education from \$22,307 to \$23,073 for the 2014-15 school year. In addition, the retirement contribution rate will increase from 16.93% to 21.40%. The reimbursement for a portion of the retirement payments (PSERS) is being discontinued by the Commonwealth of Pennsylvania. The financial impact will be a loss of approximately \$400,000 for the 2014-15 school year.

**Future Events that will Financially Impact the School**

The school will be implementing GASB 68, Accounting for Financial Reporting for Pensions: an Amendment of GASB Statement No.27, for the year ending June 30, 2015. The financial impact of the implementation has not been determined at this time.

All liabilities, both current and long-term, are reported in the Statement of Net Assets. Balances at year end are:

Amounts Reported for Governmental Activities in the Statement of Activities are  
Difference because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. In addition, gain or loss on disposal of capital assets does not recognize the original cost of the assets. However, in the statement of activities, the gain or loss on the disposal of assets is recognized.

Capital Outlays	39,841
Depreciation Expense	(606,511)

Some governmental funds report note proceeds as financing sources, while repayment of note principal is reported as expenditures. In the statement of net position, however, the issuance of debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. In addition, governmental funds report long-term assets as financing uses but as other assets in the statement of net position. The net effect of these differences in the treatment of debt and associated long-term assets is as follows:

**GLOBAL LEADERSHIP ACADEMY CHARTER SCHOOL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2014**

**NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Background**

Global Leadership Academy Charter School (the “School”) was organized in 1999 as a nonprofit corporation in Pennsylvania to operate a charter school in accordance with Pennsylvania Act 22 of 1997, whereby a charter is granted for a specified time period and may be renewed upon expiration. The School’s current charter was effective June 30, 2014 and will expire on June 30, 2019. The School’s mission is to develop creative leaders who will not follow a path, but who will become future leaders of the world. The School is located in Philadelphia, Pennsylvania and provides public education to students in grades K-8.

**Basis of Presentation**

The financial statements of the School have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing government accounting and financial reporting principles. The GASB has issued a codification of governmental accounting and financial reporting standards.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (the statement of net position and the statement of activities) report on the School as a whole. The statement of activities demonstrates the degree to which the direct expenses of the School are offset by program revenues.

The fund financial statements (governmental fund balance sheet and statement of governmental fund revenues, expenditures and changes in fund balance (deficit)) report on the School’s general fund.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

*Government-wide Financial Statements:*

The statement of net position and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. Grants and similar items are recognized as soon as all eligibility requirements imposed by provider have been met.

*Fund Financial Statements:*

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

The government reports the following major governmental fund:

General Fund – The General Fund is the operating fund of the School and accounts for all revenues and expenditures of the School.

(CONTINUED)**

**Method of Accounting**

Accounting standards requires a statement of net position, a statement of activities and changes in net position. It requires the classification of net position into three components – net investment in capital assets; restricted; and unrestricted. These calculations are defined as follows:

- Net investment in capital assets – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors such as through debt covenants, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position – This component of net position consists of net position that do not meet the definition of “restricted” or “net investment in capital assets.”

In the fund financial statements, governmental funds report nonspendable portions of fund balance related to prepaid expenses, long term receivables, and corpus on any permanent fund. Restricted funds are constrained from outside parties (statute, grantors, bond agreements, etc.). Committed fund balances represent amounts constrained for a specific purpose by a governmental entity using its highest level of decision-making authority. Committed fund balances are established and modified by a resolution approved by the Board of Trustees. Assigned fund balances are intended by the School to be used for specific purposes, but are neither restricted nor committed. Unassigned fund balances are considered the remaining amounts.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance are available, it is currently the School’s policy to use restricted first, then unrestricted fund balance. When expenditures are incurred for purposes for which committed, assigned, and unassigned amounts are available, it is currently the School’s policy to use committed first, then assigned, and finally unassigned amounts.

**Budgets and Budgetary Accounting**

Budgets are adopted on a basis consistent with U.S. generally accepted accounting principles. An annual budget is adopted for the General Fund.

The Budgetary Comparison Schedule presents both the original and final appropriated budgets for the reporting period as accepted by the Labor, Education and Community Service Comptroller’s Office. The General Fund budget appears on page 26.

NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2014**

**NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Concentration of Credit Risk**

Periodically, the School may maintain deposits in excess of the Federal Deposit Insurance Corporation's limit of \$250,000 with financial institutions.

**Cash**

The School's cash is considered to be cash on hand and demand deposits. For the purpose of financial statement presentation, the School considers all highly liquid instruments with a maturity of three months or less to be considered cash.

**Accounts Receivable**

Accounts receivable primarily consist of amounts due from the Pennsylvania Department of Education for federal and state subsidy programs. Accounts receivable are stated at the amount management expects to collect from outstanding balances. As of June 30, 2014, no allowance for doubtful accounts was deemed warranted based on historical experience.

**Prepaid Expenses**

Prepaid expenses include amounts for payments to vendors for services applicable to future accounting periods such as insurance premiums.

**Capital Assets**

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. All capital assets with individual cost of more than \$3,000 are capitalized at cost and updated for additions and retirements during the year. The School does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add the value of the asset or materially extend an asset's life are not. Capital assets of the School are depreciated using the straight-line method over the useful lives of the assets. The estimated useful life of equipment, furniture and fixtures, and vehicles is five years. Leasehold improvements are depreciated over the lesser of the useful life or the remaining lease term. The estimated useful life of leasehold improvements is five years.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School has no items that qualify for reporting in this category.

**GLOBAL LEADERSHIP ACADEMY CHARTER SCHOOL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2014**

**NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Deferred Outflows/Inflows of Resources (Continued)**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School has no items that qualify for reporting in this category.

**Income Tax Status**

The School is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Service Code. No provision for income taxes has been established, as the School has no unrelated business activity. Should the tax exempt status be challenged in the future, the School's three most recent tax years are open for examination by the IRS.

**NOTE 2 CASH**

**Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the School's deposits may not be returned to it. The School monitors custodial credit risk by periodically reviewing the Federal Deposit Insurance Corporation's ("FDIC") limits and published credit ratings of its depository banks. Accounts are insured by the FDIC's temporary transaction guarantee program. Under the Pennsylvania Act 72 (72 Pa. Stat. Ann Sec 3836-1 et seq) financial institutions pledge collateral on a pooled basis to secure public deposits in excess of FDIC insurance limits. Since the School maintains all of its funds in demand deposits, they do not deem it necessary to have a written investment policy. The Foundation also is not covered under this act.

As of June 30, 2014, the custodial risk as reconciled to the financial statements is as follows:

	Governmental Funds	Component Unit
Uninsured and Uncollateralized	\$ -	\$ -
Uninsured and collateral held by the pledging bank's trust department not in the School's name	2,711,610	-
Total Custodial Credit Risk	\$ 2,711,610	\$ -

Plus: Insured Amount	251,260	16,596
Less: Outstanding Checks	148,772	(4,750)
Total Cash Per Financial Statements	\$ 3,111,642	\$ 11,846

The School also maintains restricted deposits related to bonds issued that are not included in the analysis above. The total of restricted deposits is \$1,616,694 at June 30, 2014 (see also Note 4).

**NOTE 7 RETIREMENT PLAN**

*Plan Description:*

The School contributes to the Public School Employees' Retirement System (the System), a governmental cost-sharing multiple-employer defined benefit pension plan. The plan provides retirement and disability benefits, legislatively mandated *ad hoc* cost-of-living adjustments, and healthcare insurance premium assistance to qualifying annuitants. The Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 Pa.C.S. 8101-8535) assigns the authority to establish and amend benefit provisions to the System. The System issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, P.O. Box 125, Harrisburg, Pennsylvania 17108-0125. This publication is also available on the PSERS website at [www.psers.state.pa.us/publications/cafr/index.htm](http://www.psers.state.pa.us/publications/cafr/index.htm).

*Funding Policy:*

The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers and the Commonwealth of Pennsylvania. Member contributions are as follows:

- Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.5% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.5% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System after June 30, 2001, contribute at 7.5% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

**GLOBAL LEADERSHIP ACADEMY CHARTER SCHOOL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2014**

**NOTE 7 RETIREMENT PLAN (CONTINUED)**

- Those who become members for the first time on or after July 1, 2011, may choose between two classes of membership in PSERS, and therefore, two different base contribution rates.
- **New members electing Class T-E:**
  - o The base member contribution rate is 7.50% with “shared risk” contribution levels that may fluctuate between 7.50% and 9.50%.
- **New members electing Class T-F:**
  - o The base member contribution rate is 10.3% (base rate) with “shared risk” contribution levels that may fluctuate between 10.30% and 12.30%.

Employer contributions are based upon an actuarial valuation. For fiscal year ended June 30, 2014, the rate of employer’s contribution was 12.36% of covered payroll. The 12.36 % rate is composed of a pension contribution rate of 11.50% for pension benefits and 0.86% for healthcare insurance premium assistance.

Payroll expense for employees covered by the System for the year ended June 30, 2014 was approximately \$3.3 million.

In accordance with Act 29 of 1994, the Commonwealth of Pennsylvania will pay school entities for contributions made to the System based on the formula in Act 29 of 1994, but not less than one-half of the school entities contributions. The School’s contributions to the Plan for the years ended June 30, 2014, 2013, and 2012 totaled \$402,012, \$254,587 and \$164,404, respectively.

**NOTE 8 GRANT CONTINGENCIES**

The School participates in numerous state and federal grant and reimbursement programs as discussed in Note 6, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs and reimbursement programs for social security taxes, retirement expense, rental expense and health services are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants and reimbursement programs, refunds of any money received may be required and the collectability of any related receivable at June 30, 2014 may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions has been recorded in the accompanying financial statements for such contingencies.

**GLOBAL LEADERSHIP ACADEMY CHARTER SCHOOL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2014**

**NOTE 9            LITIGATION**

The School is, from time to time, involved in claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, at this time, the ultimate resolution of these matters will not have an adverse effect on the financial position of the School.

**NOTE 10          RISK MANAGEMENT**

The School is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The School maintains general liability and errors and omissions insurance coverage of \$1,000,000 per occurrence with a commercial carrier. In addition, the School carries commercial coverage for all significant risks of loss. There have been no significant reductions in insurance coverage from the prior year in any of the School's policies, and any claims resulting from these risks have not exceeded commercial insurance coverage limits thus far.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

Board of Trustees  
Global Leadership Academy Charter School  
Philadelphia, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit and the general fund of Global Leadership Academy Charter School (the "School") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon, dated December 19, 2014.

**Internal Control over Financial Reporting**

In planning and performing our audit, we considered Global Leadership Academy Charter School's internal control over financial reporting (internal control) to determine the audit that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Global Leadership Academy Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Global Leadership Academy Charter School's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Global Leadership Academy Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM  
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY OMB CIRCULAR A-133**

Independent Auditor's Report

Board of Trustees  
Global Leadership Academy Charter School  
Philadelphia, Pennsylvania

**Report on Compliance for Each Major Federal Program**

We have audited Global Leadership Academy Charter School's compliance with the types of compliance requirements described in *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Global Leadership Academy Charter School's major federal programs for the year ended June 30, 2014. Global Leadership Academy Charter School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for Global Leadership Academy Charter School's major federal programs based on our audit on the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Global Leadership Academy Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Global Leadership Academy Charter School's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Global Leadership Academy Charter School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2014.

## Report on Internal Control over Compliance

Management of Global Leadership Academy Charter School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered Global Leadership Academy Charter School's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for its major federal program and to test and report on the internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Global Leadership Academy Charter School's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
