National Junior Honor Society

By: Julia Bonavita

Recently, some of the best middle school students that ASCS has to offer to step up to the front of the altar to accept their pins and responsibility to be role models to their fellow students. These students must have an all A's and one B grade average. They also must be reliable, self composed, and self disciplined. The students must have respect from their educators and peers. There is a long interviewing process that includes nominations, forms, and a letter of recommendation. This is an amazing honor that is worth working hard for and to and is something to work hard for to achieve.

Have you believed because you have seen me? Blessed are those who have not seen and yet have believed. John 20:24-29

"Our old history ends with the cross; our new history begins with the resurrection."

Serious Six Grade Students Studying Science

FATHER KNOWS BEST: Especially, Cristina Kodadek’s Dad By Grayton Ward

Thomas Kodadek has discovered one of the greatest advancements in Alzheimer’s research, a new technology to diagnose Alzheimer’s before symptoms appear. This discovery is said to bring jobs to the Jupiter area. This technology is also being put to use to diagnose other diseases including cancer. Even though Kodadek created it, the property rights belong to the University of Texas Southwestern Medical School . Since, the idea came to him five years ago while working for the university. There is still not a cure for Alzheimer’s, yet, but hopefully there will be soon.

What Country Has the Smartest Students?

By: Grayton Ward

Hey , have you ever wondered how smart students from the United States are compared to other countries? . Well, in math the top performing countries are: Hong Kong (China), Finland, South Korea, Netherlands, Liechtenstein, Japan, Canada, and Belgium. Now guess where we are ranked? We’re only ranked twenty-fifth! Now, that’s pretty low. Now how many people like science? I know I do. But , the U.S. is low in science too! We’re ranked twentieth among other countries worldwide. Where’s our pride! It’s time to step up to the plate and be the best.

Our Future Look; Brighter: Brooke Aaron

By Grayton Ward

Brooke Aaron, with her project on how the color of your house could save you money, has the opportunity of a life time. To compete in Washington D.C., but first she must compete in a series of online science fairs. In the end only 30 lucky students from around the nation will get a trip to Washington D.C. to compete in nationals. She said she feels confident and thinks she can win. We will keep her in her prayers.

Science Museum Field Trip

By: Davina Delgado and Julia Bonavita

Recently, the sixth grade class took a group field trip to the West Palm Beach Science Museum to learn about matter. They were able to participate in a scavenger hunt and had to opportunity to listen to a presentation which was followed by a hands-on activity. Afterwards, they had some time to walk around inside and outside to explore and learn! They had a great time and hope to come back soon! Pictures of their field trip are on the page 2.

SPORTS

WE ARE THE CHAMPIONS AGAIN!

By: Olivia Schiappa

The Girls Softball Team has won the 2011 championship! They won by a close score of 6-3 beating Saint Clare! Congrats Francesca Benedetto, Nancy Benedetto, Melanie DeVarona, Breeanna Navarro, Christina Navarro, Bianca Pallo, Annastasia Rabadan, Samantha Stilley, Francie Zanolli, Delaney Cole, Shelby Rinker, and Morgan Sousa! Great job coaches, Mrs. Garcia and Ms. Nickler! Season record (8—2)

A Player’s Point of View about the J.V. Soccer Season

By Maianna Cidiel

The j.v. soccer team had a fantastic soccer season scoring 20 goals this season. They improved greatly from the beginning of the season to the end. In the first game of the playoffs they played Sacred Heart. Within the first five minutes, the Eagles scored a goal. Sacred Heart quickly came back to tie the game. Unfortunately, Sacred Heart scored the next three goals. But, the Eagles came back to score two goals. Next. Sacred Heart scored again which made the score 5-3. Then the Eagles scored a goal. Sacred Heart scored again. Then the final whistle blew and the game was over. The final score was 6-4. The game was very close which made it exciting. Congratulations, to the J.V. soccer team on a outstanding season.

On The Field: Varsity Soccer

By Megan Lanthier

The best way to describe this year's varsity soccer team is strong character but weak bodies. By the end of the season we only had ten players on the field. Even though we had a tough season we always played our best and never gave up. I loved playing soccer this year because it was exciting to see how much we improved and grew as a team. We treated every game as a new beginning and always played our best. There are no words to describe how much strength this team had. I also loved playing because our team was never intimidated by other players, no matter how big or tall they were. The players made me proud to be part of this team.

2011 Varsity Soccer Team

| Sophia Bond | 6 th Grade |

All About Me

by Olivia Schiappa

I've been asked many times about my singing since I sang in church. First of all I started getting interested in theater when I was in 3rd grade. I then I took an acting class and loved it. I also started taking voice and dancing lessons. My voice started to improve, thanks to my voice coach, and I started getting bigger roles in shows. I still take all of these lessons and I'm still improving. It was such an honor to sing the national anthem at Roger Dean Stadium and I hope to do it again soon. Anyone can do it if they work hard and never give up.

NEW EAGLE IN THE NEST: Lauren Sangrico

By Julia Bonavita

What school did you previously attend? *Marsh Pointe Elementary*

What are your hobbies? *I play soccer. And, I enjoy hanging out with my friends and family.*

What three words would you use to describe yourself? *Talkative, nice and smart.*

Do you have any pets? *Yes, I have a dog which is a miniature schnauzer and a baby water turtle.*

Where is the farthest place you ever traveled? *California*

How do you like ASCS? *I really like it here, especially, because of the new friends I made.*

Green Facts

by Kristina Gusmano

Wind power is the fastest growing source of energy in the world

The amount of wood & paper Americans throw away each year is enough to heat 50 million homes for 20 years.

Turning down your thermostat by one degree can cut 8% off your fuel bill.

Americans use 2,500,000 plastic bottles every hour .

The energy saved from one recycled aluminum can will operate a television for three hours.

To produce each week's Sunday paper 500,000 trees must be cut down.

Every three months, Americans throw away enough aluminum to rebuild the nation's commercial air fleet.

Over one billion trees worth of paper is thrown away every year.

If Americans recycled just one-tenth of their newspapers, we would save 25 million trees a year.

Every month, we throw out enough glass bottles and jars to fill a giant sky scraper.

It's in Your Hands

April Fools Jokes

Forgetful

Tape magnets to the bottom of an empty coffee cup, and attach it to the top of your car. Laugh at all the people who frantically try to get your attention as you drive by them.

Trip and Slip

Wait until your victim is in the kitchen. Come in and start filling a bucket with water (tell them you're washing the car or something). Only instead of actually filling the bucket, just pretend. Lift the bucket with both hands, acting like it's heavy and filled with water. Take a couple of steps in the victim's direction and suddenly "trip" and aim the bucket right toward them. They'll duck thinking they're getting splashed!

Do the Splits

Find a scrap of cloth. Place a dollar on the floor and stay nearby. When the victim comes by and bends down to pick up the dollar, rip the cloth loudly. Most people will reach back to see if they ripped their pants.

Document Panic

Has your victim been working on an important document on their computer? Carefully hide the document in a safe place, then create a fake document with the same name. Fill the document with a funny story. At the bottom but "April Fools"

Can't Catch This

Tape a dollar bill to the end of the fishing line on a fishing pole. Then hide behind a bush and wait for your victim to come along. As soon as they reach for the money, reel in the line a few inches. Keep

by Davina Delgado

reeling until they realize they're being had.

Short Sheet

This is a one of the oldest April Fool's Day pranks in the world! Take the top sheet off the victim's bed, and tuck the bottom end under the top end of the mattress. Pull it down and then fold it back up so that the top end is where it would be if the bed was made normally. Replace the pillow, blanket, etc., and make up the bed like it was before. When the victim gets into bed, they'll be surprised when they can't slide their feet all the way down to the bottom of the bed!

MOVIE REVIEW: DIARY OF A WIMPY KID 2-RODRICK RULES BY JULIA BONAVITA

I recently went to go see the newest addition to the Diary of a Wimpy Kid film series. I entered the movie theater with high expectations and a bucket full of popcorn. The movie reveals a new, more mature side, of the seventh grade protagonist, Greg Heffley. He falls in love with a new, beautiful girl, Holly Hill, played by Peyton List. Rowley Jefferson, is still his childish self. Greg is trying to be noticed by Holly, and in desperation, turns to his big brother Roderick for advice. Rodrick

torments Greg, but after a few days, they become friends. After awhile, they have a falling out and Roderick swears he will never speak to Greg ever again. But he has a change of heart when Greg makes an enormous sacrifice for him, risking his popularity and chance of dating Holly Hills. This movie was better than the first and but new meaning to the word "hilarious!"

How Great Thy ART: In Memory of Mrs. Sudell

Mrs. Sudell was a great art teacher. She always had everybody laughing and smiling. We wish we could have her here with us today but God was calling her to be with Him in heaven. Now we have someone very special watching over us . - Christina Gusmano

Mrs. Sudell was an amazing art teacher and is now painting with Jesus. She taught many students including me. She taught her students how to paint landscapes, make tissue

crosses, and draw beautiful lifelike portraits of themselves. She also taught her students to look at art and the world differently. She inspired us to do ourr best and that whatever we drew, God will be proud
-Julia Bonavita

Art enables us to find ourselves and lose ourselves at the same time.

Thomas Merton

This Is Your Life

By Switchfoot

No matter what age you are, or what your circumstances might be, you are special, and you still have something unique to offer. Your life, because of who you are, has meaning.

Barbara de Angelis

Are You Who You Want To Be?

Yesterday is a wrinkle on your forehead
Yesterday is a promise that you've broken
Don't close your eyes, don't close your eyes
This is your life and today is all you've got now
Yeah, and today is all you'll ever have
Don't close your eyes

This is your life, are you who you want to be
This is your life, is it everything you dreamed that it would be
When the world was younger and you had everything to lose
Don't close your eyes

This is your life, are you who you want to be

This is your life, is it everything you dreamed that it would be
When the world was younger and you had everything to lose

Yesterday is a kid in the corner
Yesterday is dead and over

This is your life, are you who you want to be

This is your life, is it everything you dreamed that it would be
When the world was younger and you had everything to lose

Don't close your eyes
This is your life, are you who you want to be
This is your life, is it everything you dreamed it would be
When the world was younger and you had everything to lose
And you had everything to lose
