

# TEST & BINDER CHECK ON LINEAR MOTION

....an Overview

## TYPE OF QUESTIONS

- Matching – 1 pt each
- Linear motion calculations – 3 pts each
- “Medium” Answer – 3 pts each
- **40 points total**

# WHAT TO STUDY

- Know your vocabulary
- Equations – average speed/velocity, distance, time, acceleration, and displacement.
- Be able to interpret and make calculations based on a linear motion graph.
- Understand the relationship between velocity and acceleration.
- Distinguish between instantaneous speed and average speed.

# BINDER CHECK

- Remember the following...
  - Have your binder nice and neat.
  - Have both your table of contents (hand outs and notes), word wall, and equation chart be up to date.
  - Have everything in order according to table of contents.
- Make sure you have the following notes, questions, and summaries for...
  - Linear Motion.
  - Conversions.
  - Acceleration.
