# UNQUALIFIED OPINION ON THE BASIC FINANCIAL STATEMENTS

Board of School Trustees Abernathy Independent School District Abernathy, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Abernathy Independent School District (the District), as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Abernathy Independent School District, as of June 30, 2010, and the respective changes in financial position and the cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2010, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's discussion and analysis and budgetary comparison information on pages 3-8 and 33, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Abernathy Independent School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The other supplementary information, including the Texas Education Agency requested schedules, listed in the table of contents are likewise presented for purposes of additional analysis and also not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Exhibit J-3 - Fund Balance and Cash Flow Calculation Worksheet, which is marked "Unaudited", has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on Exhibit J-3.

# ABERNATHY INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

# INTRODUCTION

Our discussion and analysis of the Abernathy Independent School District's financial performance provides an overview of the District's financial performance for the year ended June 30, 2010. It should be read in conjunction with the District's Basic Financial Statements and Independent Auditors' Report.

The Management's Discussion and Analysis (MD&A) is an element of the new financial reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued June, 1999. The Texas Education Agency mandated all school districts in Texas adopt the new financial reporting model effective September 1, 2001.

### FINANCIAL HIGHLIGHTS

- · The net assets of the District increased by \$1,216,555 or 16.8%. This increase is primarily due to an increase in fund balance resulting from expense containment. The District's statement of activities showed total revenues were \$10,242,243, and expenses totaled \$9,025,688.
- The District ended the year, June 30, 2010, with total net assets of \$8,463,660, and unrestricted net assets of \$4,650,538. The balance of cash and investments at June 30, 2010, was \$13,069,031.
- · Total general fund expenditures were \$7,733,282 for the year ended June 30, 2010, this compares with general fund expenditures of \$8,129,441 for the year ended June 30, 2009. This decrease in expenditures is a result of expense containment.
- · The District's total revenues on the fund financial statements increased from \$8,836,831 in 2008-09 to \$10,227,858 in 2009-10, due primarily to increases in property tax revenue due to issuance of the new bonds and the corresponding required I&S tax rate.

# **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.

The government-wide financial statements include the Statement of Net Assets and the Statement of Activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how the services of the District were sold to departments within the District. The fiduciary statements provide financial information about activities for which the District acts solely as a trustee.

The notes to the financial statements provide narrative explanations and additional data needed for full disclosure in the government-wide statements and the fund financial statements.

The combining statements for nonmajor funds contain information about the District's individual nonmajor funds. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

# Reporting the District as a Whole

## Government-Wide Financial Statements

The analysis of the District's overall financial condition and operations is presented in the Statement of Net Assets and the Statement of Activities. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Assets includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These statements apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, grants provided by the U.S. Department of Education to assist children with disabilities of from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net assets and changes in them. The District's net assets (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Assets and the Statement of Activities, the District is reporting its governmental activities. The District currently has no business type activities or component units as defined in the GASB Statement No. 34.

· Governmental activities – All of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

# **Reporting the District's Most Significant Funds**

# Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received from the U.S. Department of Education through TEA. The District's administration establishes many other funds to help it control and manage money for particular purposes. The District's three fund types—governmental, proprietary and fiduciary – use different accounting approaches.

Governmental funds – Most of the District's basic services are included in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net

Assets and the Statement of Activities) and governmental funds in reconciliation schedules following the fund financial statements.

· Proprietary funds – The District reports the activities for which it charges users (other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Assets and the Statement of Activities. The internal service funds (the District's only category of proprietary funds) report activities that provide worker's compensation insurance coverage to the District's other programs and activities.

Fiduciary funds – The District is the trustee, or fiduciary, for money raised by student activities. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the government wide financial statements because the District cannot use these assets to finance its operations.

# **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

# **Changes in Net Assets**

The District's net assets increased during the year ended June 30, 2010. The net assets increased by \$1,360,635 (see Table II). The net assets of the District's Internal Service Fund increased by \$24,984. Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was \$4,650,538 at June 30, 2010. This compares with the District's unrestricted net assets at June 30, 2009 of \$4,550,989, an increase of \$99,549.

	\$_	9,025,688	\$	8,080,079		
Increase in Net Assets	\$	1,216,555	\$	782,905		
Net Assets - Beginning of Year	_	7,247,105	_	6,464,200		
Net Assets - End of Year	\$_	8,463,660	\$_	7,247,105		

The District's total revenues increased from \$8,862,984 in fiscal year 2009 to \$10,242,243, an increase of \$1,379,259. This increase was attributable to debt service tax collections levied as a result of a successful bond election in May 2009. The total expenses of the District increased by \$801,529 from \$8,080,079 to \$8,881,608.

Other factors impacting the District's financial position include the following:

- The District's total property tax rate increased from \$1.17 per 100 dollars of valuation to \$1.50 per 100 dollars of valuation. The District Appraised valuation of taxable property decreased from \$518,946,507 to \$407,731,073, a decrease of \$111,215,434 or 21.4%. This decrease is related primarily to declining mineral values. The total school property taxes assessed for school year 2010 were \$6,115,966. This is an increase of \$44,292 from the \$6,071,674 assessed in 2009, and is a result of the issuance of the new bonds and the corresponding required I&S tax rate.
- The District's average daily attendance (ADA) is the basis for most of the State funding received. The ADA increased 5% from 2009 to 2010, contributing to an increase in base state revenues from \$1,549,152 in 2009 to \$2,710,949 in 2010 due to the changes in the districts tax revenues.

### **Fund Balances**

The District's total Governmental Funds fund balance was \$14,099,930. This fund balance is reported in the various Governmental funds as follows:

# General Fund

Unreserved and Undesignated \$2,585,718 – This balance is available for current spending, however, it has been the practice of the District to try and maintain a fund balance that is at least several months operating expenses.

Designated Fund Balance – Construction \$1,900,000 – This represents amounts the Board of Trustees has earmarked for future facilities and transportation expenditures.

# **Debt Service**

Reserved for Retirement of Long Term Debt \$284,185 – These funds are restricted by debt service covenants to fund the principal and interest payments of the bond issue.

# Capital Projects

Reserved for Capital Acquisitions \$9,326,068 – This balance is restricted for the renovation of the high school, construction of the gymnasium, and other facility improvements from bond proceeds sold in August 2009.

# **Budgetary Highlights**

Over the course of the year, the Board of Trustees revised the District's budget several times. These budget amendments were necessary to accommodate changes in federal program allotments. None of the amendments made were considered to be significant changes.

# CAPITAL ASSET AND DEBT ADMINISTRATION

# Capital Assets

At the end of 2010, the District had \$3,693,718 of capital assets, net of accumulated depreciation. Financial statement footnote no. 6 discloses the capital asset activity of the District for the year ended June 30, 2010.

### Debt

The District entered the year with \$401,075 of outstanding debt related to capital leases from prior year. Footnote no. 9 discloses the activity of the districts capital lease obligations and other debt instrument for the year ended June 30, 2010.

In the current year, the District issued \$9,880,000 in unlimited school building bonds and \$120,000 of capital appreciation bonds. The proceeds will be used for the renovations of the high school, construction of the gymnasium, and other facility improvements. Currently, there is \$692,611 in construction work in progress for these projects. Footnote no. 8 discloses the issuance and activity for bonds for the year ended June 30, 2010.

# FACTORS BEARING ON THE DISTRICT'S FUTURE

The District's elected and appointed officials considered factors such as the economy and enrollment trends, when setting the fiscal year 2010 budget and tax rates. Amounts available for appropriation in the General Fund budget for 2011 are \$8,002,088. Assessed property values for 2011 are \$464,214,935, an increase of 13% over the 2010 property values of \$410,772,448 resulting in an increase of about \$600,000 of local revenues as a result of increasing property values while state revenues will decrease the same amount. The District's tax rate of \$1.50 per \$100 valuation in 2010 will stay consistent at \$1.50 per \$100 valuation in 2011, with M&O tax rate decreasing to \$1.1555 per \$100 valuation and I&S tax rate increasing to \$0.3445 per \$100 valuation. Current attendance figures remain constant, and State revenues are expected to decrease to make up some of the difference in tax rates. Additionally, for the 2010-2011 school year, the District is a Chapter 41 District and has budgeted to pay approximately \$44,000 in State Recapture payments for wealth equalization.

Both of these factors were considered when setting the budgetary expenditures for 2011. Budgeted expenditures are expected to increase 4% to \$8.0 million in 2011 from \$7.7 million in 2010. This is due to an increase in personnel costs. The District has added no major new programs or initiatives to the 2011 budget and plans to continue all programs currently offered.

# CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at Abernathy Independent School District, 505 7<sup>th</sup> Street, Abernathy, Texas 79311.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS JUNE 30, 2010

Total Fund Balances - Governmental Funds (Exhibit C-1)	\$	14,099,930
The District uses internal service funds to charge the costs of certain activities, such as workers compensation, to appropriate functions in other funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets. The net effect of this consolidation is to increase net assets.		85,761
Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$8,422,398 and the accumulated depreciation was \$5,325,210. The beginning long-term debt was \$401,075. The net effect of the beginning balances for capital assets net of depreciation and long-term debt is to increase net assets.		2,696,113
Bond issuances provide current financial resources to governmental funds but does not effect the Statement of Activities. During the year, the district issued capital bonds of \$10,000,000 recognizing a net of \$349,173 for bond discounts and capital appreciation bond premiums and incurring \$281,759 in issuance costs.		(10,067,414)
Current year net accretion on capital appreciation bonds and premium amortization, as well as accrued inteterst payable.		(153,093)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statement, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2010 capital outlays \$1,010,805 and debt principal payments \$1,028,347 is to increase net assets.		2,039,152
The 2010 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net assets.		(414,275)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred property tax revenue as revenue, eliminating interfund transactions, and recognizing the amortization of bond issuance costs and discounts. The net effect of these reclassifications and recognitions is to increase net assets.	_	177,486

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2010

Net change in fund balances - Total Governmental Funds (Exhibit C-3)	\$	9,788,502
Amounts reported for governmental activities in the statement of activities (B-1) are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays \$1,010,805 exceeded depreciation \$414,275 in the current period.		596,530
Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the net amount by which deferred property tax revenue changed between the current year \$193,171 and the prior year \$178,787.		14,384
Bond issuances provide current financial resources to governmental funds but does not effect the Statement of Activities. During the year, the district issued capital bonds of \$10,000,000 recognizing a net of \$349,173 for bond discounts and capital appreciation bond premiums and incurring \$281,759 in issuance costs.		(10,067,414)
Repayment of the bond and other long-term debt principal \$1,028,347 is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. This amount of repayments including amortization of bond issue costs and discounts of \$15,684.		1,012,663
Current year accretion on capital appreciation bonds, premium amortization and accrued interest payable.		(153,093)
Internal service funds are used by management to charge the costs of certain activities, such as workers compensation, to individual funds. The net revenue of the internal service fund is reported with governmental activities. (See D-2)	_	24,983
Change in net assets of governmental activities (Exhibit B-1)	\$	1,216,555

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Abernathy Independent School District's (District) basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; as applied to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (FAR). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

## A. REPORTING ENTITY

The Board of School Trustees (the Board), a seven member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board of Trustees is elected by the public. The Board has the exclusive power and duty to govern and oversee the management of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (the Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined in governmental accounting and financial reporting standards. There are no component units included within the reporting entity.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding entities.

# B. BASIS OF ACCOUNTING AND PRESENTATION

# **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The Statement of Net Assets and the Statement of Activities display information about the government-wide entity as a whole. These statements report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental Activities, which normally are supported by taxes, state foundation funds, grants, and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support (i.e., internal service funds are considered governmental activities and not business-type activities). The District currently has no business type activities.

These government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the District, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense to each function allocated. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

# **FUND FINANCIAL STATEMENTS**

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. Major governmental funds are reported as separate columns in the fund financial statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues from local sources consist primarily of property taxes. No amounts have been recorded for property tax revenues collected after June 30, 2010. State revenues are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and claims and judgments are recorded only when payment is due.

In the fund financial statements, governmental fund types recognize the face amount of the debt issued as other financing sources.

The proprietary fund and the fiduciary fund financial statements reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements.

Propriety funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations, they usually come from exchange or exchange-like transactions. Interest income earned on the operating cash account is considered operating revenue. All other revenues are non-operating.

# **GOVERNMENTAL FUND TYPES**

The District reports the following major governmental funds:

**General Fund** – This fund is established to account for resources used for general operations. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. This is a budgeted fund and undesignated fund balances are considered resources available for current operations.

Capital Projects Fund – This governmental fund is established to account for proceeds, on a modified accrual basis, from the sale of bonds and other resources to be used for Board-authorized construction of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the debt service fund and are used to retire related bond principal.

**Debt Service Fund** – This fund is used to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which tax has been dedicated. This is a budgeted fund and any unused sinking fund balances will be transferred to the general fund after all of the related debt obligations have been met.

Additionally, the government reports the following fund types:

**Special Revenue Funds** – These funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal financial assistance generally is accounted for in a special revenue fund. Except for the food service fund, any unused balances are returned to the grantor at the close of specified project periods. The food service fund is the only required budgeted special revenue fund. For all other funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds. The District's food service fund is considered a special revenue fund since the general fund subsidizes the food service program for all expenditures in excess of NSLP and user fees. Food service fund balances, if any, are used exclusively for child nutrition program purposes.

# PROPRIETARY FUND TYPES

**Internal Service Funds** – Internal service funds are used to account for revenues and expenses related to services provided to parties inside the District, specifically for the operation of its partially-funded insurance plan for workers' compensation on a cost-reimbursement basis.

## FIDUCIARY FUND TYPES

Agency Funds – These custodial funds are used to account for activities of student groups and other organizational activities requiring clearing accounts. Financial resources for the agency funds are recorded as assets and liabilities; therefore, these funds do not include revenues and expenditures and have no fund equity. Student activity organizations exist with the explicit approval of, and are subject to revocation by, the District's Board of Trustees. If any unused resources are declared surplus by the student groups, they are transferred to the general fund with a recommendation to the Board for an appropriate utilization through a budgeted program.

# C. BASIS OF ACCOUNTING APPLICABLE TO ALL FINANCIAL STATEMENTS

Capital assets, which include buildings and improvements, furniture and equipment, vehicles and work in progress are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets useful lives are not capitalized.

Revenues from state and federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant. Funds received but unexpended are reflected as deferred revenues, and funds expended but not yet received are shown as receivables. If balances have not been expended by the end of the project period, grantors generally require the District to refund all or part of the unused amount.

Supplies and materials are debited as expenditures when purchased.

It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District.

Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.

When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

In accordance with the FAR, the District has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FAR. Mandatory codes are utilized in the form provided in that section.

## D. BUDGETARY DATA

The official budget was prepared on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America, for the general fund and the food service special revenue fund. The remaining special revenue funds adopt project-length budgets which do not correspond to the District's fiscal year. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days public notice of the meeting must be given.
- c. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.

The budget is prepared and controlled at the function level within each fund and is amended at this level as needed. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. Such amendments are made before the fact and they are reflected in the official minutes of the Board. During the year, several amendments were necessary.

# E. ENCUMBRANCE ACCOUNTING

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at June 30, 2010.

# F. FUND EQUITY

Unreserved, undesignated fund equity for governmental funds in the fund financial statements indicates available amounts for the budgeting of future operations. The unreserved designated fund equity for governmental funds indicates unreserved funds that have been earmarked by Board resolution for specific purposes and are therefore not available for general expenditures to be appropriated in the following period unless amended by future Board action. Reserved fund balance is that portion of fund equity which is not available for appropriation or which has been legally separated for specific purposes.

# G. NET ASSETS ON THE STATEMENT OF NET ASSETS

Net assets on the statement of net assets include the following:

Investment in Capital Assets, Net of Related Debt – this component of net assets represents the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, which is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Capital Projects – this component of net assets represents the difference between assets and liabilities, net of unspent bond proceeds.

Restricted for Debt Service – this component of net assets represents the difference between assets and liabilities of the debt service fund that consists of assets with constraints placed on their use by creditors.

Unrestricted – the difference between assets and liabilities that is not reported in Net Assets Invested in Capital Assets, Net of Related Debt.

# H. CASH AND CASH EQUIVALENTS - PROPRIETARY FUNDS

For purposes of the statement of cash flows for proprietary fund types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

# I. MANAGEMENT'S USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

# 2. DEPOSITS AND INVESTMENTS

<u>Legal and Contractual Provisions Governing Deposits and Investments</u>

The **Public Funds Investment Act** (Government Code Chapter 2256) (the Act) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings

accounts, (5) repurchase agreements, (6) bankers' acceptances, (7) Mutual Funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

# Policies Governing Deposits and Investments

In compliance with the **Public Funds Investment Act**, the District has adopted a deposit and investment policy. That policy does not address the following risks:

- a. Custodial Credit Risk Deposits and Investments: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits and investments in certificates of deposits may not be returned to it. The District's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state or local governments by pledging securities in excess of the highest cash balance of the government. The District is not exposed to custodial credit risk for its deposits and investments in certificates of deposit are all covered by depository insurance and pledged securities held by a third party in the District's name.
- b. Concentration of Credit Risk The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. At June 30, 2010, all of the District's investments are in certificates of deposit with its depository bank, and are completely covered by pledged securities as described in the preceding paragraph.
- c. Credit Risk Not applicable
- d. Interest Rate Risk Not applicable
- e. Foreign Currency Risk Not applicable

The carrying amount of the District's cash and temporary investments at June 30, 2010, approximates fair value and consisted of the following shown below:

	_	General Fund	Debt Service Fund	<u>-</u>	Capital Projects Fund	Other Funds		Governmenta Funds Total	l	Agency Fund	Total

# Public Funds Investment Pools

Public funds investment pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to:

1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investment in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

# 3. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Delinquent taxes are recorded in the general fund as the District has no debt service requirements. All property taxes remaining uncollected after 10 years are provided for in the allowance for uncollectible taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas legislature.

# 4. RECIEVABLE FROM OTHER GOVERNMENTS

The amount due from other governments consisted of \$1,502,939 due primarily from the State for amount earned and receivable under the Foundation and Per Capita programs and unreimbursed grant expenditures.

# 5. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2010, consisted of the following individual fund receivables and payables:

	Due from Other Funds	0	Due to Other Funds		
General Fund Special Revenue Funds	\$ 16,906	\$			
Special Revenue Funds General Fund	\$	\$	16,906		

# 6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2010, was as follows:

		6/30/09		Additions		Deletions		6/30/10	
Capital Assets:									
Land	\$	130,824	\$		\$		\$	130,824	
Work in Progress		32,512		702,111				734,623	
Building and Improvements		6,388,686		177,974				6,566,660	
Furniture and Equipment		267,984		17,216				285,200

Vehicles	_	863,046	_	113,504	_		_	976,550	
	\$_	8,422,398	\$_	1,010,805	\$_	0	\$_	9,433,203	
Accumulated Depreciation				_		_		_	
Building and Improvements	\$	4,175,292	\$	214,865	\$		\$	4,390,157	
Furniture and Equipment		104,120		36,325				140,445	
Capital Lease Items		358,692		102,399				461,091	
Vehicles	_	687,106	_	60,686	_		_	747,792	
	\$_	5,325,210	\$_	414,275	\$_	0	\$_	5,739,485	
Total Net Capital Assets	\$_	3,097,188	\$_	596,530	\$	0	\$_	3,693,718	

Depreciation expense was charged to functions of the primary government as follows:

Instruction	\$	237,510
Instruction Resources and Media Services		3,316
Curriculum and Instructional Staff Development		3,487
Instructional Leadership		356
School Leadership		24,337
Guidance, Counseling, and Evaluation Services		9,629
Health Services		3,118
Student (Pupil) Transportation		12,433
Food Services		14,609
Cocurricular/Extracurricular Activities		25,607
General Administration		24,504
Plant Maintenance and Operations		50,153
Security and Monitoring Services		227
Data Processing Services		2,952
Community Services	_	2,037
	\$_	414,275

Capital assets are being depreciated using the straight line method over the following useful lives:

Buildings and Improvements	15 – 30 years
Furniture and Equipment	5 – 12 years
Vehicles	5 – 10 years

# 7. DEFERRED REVENUES

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Deferred revenues consisted of the following at June 30, 2010:

		General	D	ebt Service		Total
	_	Fund		Fund	_	Total
Property Taxes - Delinquent	\$	170,265	\$	25,957	\$	196,222
Less: Allowance for Uncollectible Taxes		(3,052)				(3,052)
Total Tax Deferred Revenues	\$	167,213	\$	25,957	\$	193,170

# 8. LONG-TERM DEBT

# **General Obligation Bonds**

A summary of changes in bonds payable for the year ended June 30, 2010, is as follows:

Description	Interest Rate	Amount Originally Issued	Amount Outstanding 6/30/2009	l _	Issued Current Year		Increases Current Year		Retired Current Year	 Amount Outstanding 6/30/2010
2009 Unlimited Tax School Building Bonds 2009 Capital Appreciation	2.5 - 5.0%	\$ 7,470,000	\$ 0	\$	7,470,000			\$	940,000	\$ 6,530,000
Bonds 2009A Unlimited Tax	1.75 - 2.0%	120,000	0		120,000		126,253			246,253
School Building Bonds	2.5 - 4.75%	\$ 2,410,000	\$ 0	\$	2,410,000	_		\$_		\$ 2,410,000
		\$ 10,000,000	\$ 0	\$	10,000,000	\$	126,253	\$	940,000	\$ 9,186,253

On August 15, 2009, the District issued \$9,880,000 in unlimited school building bonds and \$120,000 of capital appreciation bonds with an average interest rate of 3.82% for the 2009 bonds and 3.71% for the 2009A bonds. The District is using the bonds to renovate the high school building, construct new gymnasium, and other facility improvements. Interest expenditures for bonded debt for the year ended June 30, 2010, totaled \$219,711.

Debt service requirements are as follows:

Fiscal Year	_	2	2009			2				
Ending June 30,	_	Principal	_	Interest		Principal	_	Interest	_	Total
2011	\$	20,000	\$	286,238	\$	50,000	\$	97,976	\$	454,214

# 9. OBLIGATIONS UNDER CAPITAL LEASE

A summary of the activity for the District's capital lease obligations is as follows:

Date of Issue	Description	Interest Rate	Amounts Outstanding 6/30/2009	_	Issued Current Year		Retired Current Year	Amounts Outstanding 6/30/2010
7/19/2007	Dell Computers (Teachers New)	6.46% \$	25,226	\$		\$	25,226	\$ 0
7/15/2008	Dell Computers (Lab New)	5.07%	78,778				34,059	44,719
8/31/2002	Energy Mgmt. System	6.20%	297,071	_		_	29,064	268,007
	Total Leases	\$	401,075	\$	0	\$	88,349	\$ 312,726

The Energy Management System lease is a 15-year lease originating August, 2002. Payments are due quarterly. Four payments totaling \$29,064, which included interest of \$16,332, were made during the year.

The Dell Computer (Lab New) lease is a three year lease originating July 15, 2008. One payment totaling \$34,059, which included interest of \$4,092 was made during the year.

The Dell Computer (Teacher New) lease is a three year lease originating July 17, 2008. One payment totaling \$25,226, which included interest of \$1,628, was made during the year.

Future minimum payments for these leases are as follows:

Fiscal Year		
Ending June 30,	_	
2011	\$	83,545
2012		54,750
2013		45,396
2014		45,396
2015		45,396
2016-2018	_	102,138
Total Payments	\$	376,621
Less: Interest	_	(63,895)
Total Principal	\$	312,726

Rent		9,600								9,600
Other	_	13,784			_		_		_	13,784
	\$	5,102,569	\$	48,485	\$	1,376,482	\$	18,679	\$	6,546,215

#### 11. DEFINED BENEFIT PENSION PLAN

Plan Description – All employees of the District employed for one-half or more of the standard work load and who are not exempt from membership under Texas Government Code, participate in the Teacher Retirement System of Texas (TRS), a cost sharing multiple-employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school system of Texas. It operates primarily under the provisions of the Texas Constitution and Texas Government Code. TRS also administers proportional retirement benefits and service credit transfers under Texas Government Code. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling TRS at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publication heading.

Funding Policy – State law provides for fiscal years 2008, 2009, and 2010, a state contribution rate of 6.58% and a member contribution rate of 6.4%. In certain instances the District is required to make all or a portion of the State's 6.58% contribution. Contribution requirements are not actuarially determined but are legally established each biennium pursuant to state funding policy. State contributions TRS made on behalf of the District's employees for the years ended June 30 2008, 2009, and 2010, were \$301,066, \$296,525, and \$334,723, respectively. The amounts contributed by the State are reflected in the financial statements in the general fund by respective function, in accordance with Governmental Accounting Standards Board Statement No. 24. The District paid additional state contributions for the years ended June 30, 2008, 2009, and 2010, in the amount of \$42,243, \$42,650, and \$41,451, respectively, on the portion of the employees' salaries that exceeded the statutory minimum and those salaries funded from federal grants, equal to the required contributions for each year. Additionally, payments made on behalf of the District by the State for Medicare Part D fringe benefits and salaries amounted to \$12,436 for the year ended June 30, 2010.

The payroll for employees covered by the System for the years ended June 30, 2008, 2009, and 2010, were \$4,604,918, \$4,633,201, and \$4,977,626, respectively. The school district's total payroll was \$4,757,225, \$4,794,440, and \$5,085,090, respectively.

### ABERNATHY INDEPENDENT SCHOOL DISTRICT NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2010

#### 12. SELF-INSURANCE - WORKMEN'S COMPENSATION

The District participates in a public entity risk pool for its Workmen's Compensation Insurance needs. Over one hundred school districts participate in the pool administered by Claims Administrative Services, Inc. The agreement between the District and the pool is renewable annually on September 1. The District's maximum loss under the agreement for 2010 was set at \$38,418, excluding fixed costs of \$20,373. The pool is protected against unanticipated catastrophic loss by stop loss coverage provided through Midwest Employers Casualty Corporation. The stop loss policy covers individual claims in excess of \$500,000. The District accounts for its costs associated with the pool through an internal service fund.

The claims administrator for the pool has estimated the District's share of unpaid claims as of August 31, 2010, to be \$36,695 including estimated claims incurred but not reported of \$36,525. The District has not recorded any claims payable at June 30, 2010, related to this liability.

#### 13. LITIGATION

There is no litigation pending against the District which would have a material effect on the financial statements.

#### 14. COMMITMENTS AND CONTINGENCIES

#### Federal and State Funding

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

#### 15. SUBSEQUENT EVENTS

Subsequent to the year ended June 30, 2010, the District sold \$1,000,000 of voter approved Unlimited Tax School Building Bonds for the purpose of various construction projects within the District.

The District's management has evaluated subsequent events though October 14, 2010, the date which the financial statements were available for issue.

#### 16. HEALTH CARE COVERAGE

During the year ended June 30, 2010, employees of the District were covered by a health insurance plan through TRS Active Care. The District contributed \$225 of the employee-only premium per month and employees, at their option, authorized payroll withholdings to pay contributions for dependents. Under this plan, the District is not liable for costs incurred beyond the premiums paid.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Trustees Abernathy Independent School District Abernathy, Texas

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Abernathy Independent School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 14, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Abernathy Independent School District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Abernathy Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of School Trustees, management, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

## REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A -133

Board of School Trustees Abernathy Independent School District Abernathy, Texas

#### Compliance

We have audited Abernathy Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2010. Abernathy Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Abernathy Independent School District's management. Our responsibility is to express an opinion on Abernathy Independent School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Abernathy Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Abernathy Independent School District's compliance with those requirements.

In our opinion, Abernathy Independent School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

#### Internal Control Over Compliance

The management of Abernathy Independent School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Abernathy Independent School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of School Trustees, management and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Board of School Trustees Abernathy Independent School District Abernathy, Texas

We have audited the financial statements of Abernathy Independent School District for the year ended June 30, 2010, and have issued our report thereon dated October 14, 2010. Professional standards require that we provide you with the following information related to our audit.

#### Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated February 6, 2010, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. As part of our audit, we considered the internal control of Abernathy Independent School District. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control. We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters. Our audit of the financial statements does not relieve you or management of your responsibilities.

#### Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter and meetings about planning matters.

#### Significant Audit Findings

#### Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Abernathy Independent School District are described in the notes to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the June 30, 2010 fiscal year.

We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus.

Board of School Trustees Abernathy Independent School District October 14, 2010 Page 2

There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the financial statements was depreciation. Management's estimate of the depreciation is based on industry accepted guidelines. We evaluated the key factors and assumptions used to develop the accumulated depreciation and depreciation expense at the government-wide level in determining that it is reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear.

#### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 14, 2010.

#### Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of Board of School Trustees and management of Abernathy Independent School District and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Certified Public Accountants
