Instruction

Cocurricular Activities

The Governing Board recognizes that cocurricular activities enrich the educational and social development and experiences of students. The district shall encourage and support student participation in cocurricular activities without compromising the integrity and purpose of the educational program.

Cocurricular activities are programs that are associated with the curriculum of the district and may require participation after school hours.

Academic Eligibility Requirements

In order to encourage and promote academic excellence, all students participating in cocurricular activities shall demonstrate satisfactory minimum progress in meeting the requirements of graduation by undertaking the prescribed course of study and meeting the standards of proficiency established by the district.

A program that has as its primary goal the improvement of academic or education achievements of students is not subject to these eligibility requirements.

The Superintendent or designee shall determine in advance when cocurricular activities or programs are primarily for the student's academic or educational achievement and therefore not subject to the eligibility requirements of this policy.

In order to be eligible for participation in cocurricular activities, a student in grades 9 through 12 must meet the minimum requirements for continuing scholastic eligibility outlined in rule 205 in the CIF Southern Section Blue Book: 1) currently enrolled in 20 semester credits of work; 2) passed 20 semester credits of work at the completion of the previous semester; 3) maintaining minimum progress towards meeting graduation requirements; and 4) earned a minimum 2.0 or "C" grade point average during the preceding grading period.

The grade point average and determination of eligibility shall be based on semester grades.

Cocurricular Activities (continued)

Probationary Period

Students who earn a 1.99 GPA or below will be granted a one-semester probationary period. Students granted probationary eligibility must meet the required standards by the end of the probationary period in order to remain eligible for participation.

Supervision

Cocurricular activities shall be under the general supervision of school administration.

The Superintendent or designee shall develop regulations that provide for:

1. Determining which activities and programs are affected by the eligibility requirements of this policy.
2. Identifying and monitoring ineligible students.
3. Assisting ineligible students to become eligible for participation in such activities, including but not limited to counseling and tutoring.

Selection

It is the policy of the Board of Trustees that selection of students to participate in any cocurricular activity for which students must compete should be based only upon criteria related to the required skills and abilities of the cocurricular activity, and the criteria shall not, in any way, be based on the shape or size of the student's breasts..

Annual Review

The Board shall annually review this policy and implementing regulations.
