

Characteristics of Living Things Foldable

For this project, you are going to be making a 5-flap foldable for the characteristics of living things. Use pages 28-30 to help complete the project.

Set-up

- Fold the right side of the paper over to the left side. Do not cover the holes.
- Turn the paper sideways and fold over 2/3 leaving a 1/3 section. Then fold the 2/3 side in half to get 5 equal size flaps.
- Cut along the lines you just folded ONLY to the center fold line.

Content of Foldable

Front Flaps

- Each flap will be labeled with a different characteristic of living things

Inside of Flaps

- The inside of each flap will have a short description of how YOUR organism fulfills the characteristic. Be sure to use COMPLETE sentences

Inside Back

- The inside back of the foldable has a neatly drawn and colored picture

○	Living Things respond to their environment
○	
○
