December 16, 2008

## 1. PURPOSE

To establish the importance of community involvement in decision making.

## 2. RECOMMENDATIONS

- A. The Board of Education, as well as the superintendent, may, from time to time, appoint advisory committees to study matters pertaining to the educational challenges of the school system. Such committees will deal with specific problems identified and recognized by school officials.

See Administrative Guidelines
-------------------------------

- B. Such problems may be recommended for study by staff members or groups, interested lay people or community organizations generally related to the schools. The function of these advisory committees will be clarified at the outset and will be considered fulfilled when the committee has made its final report to the superintendent and/or the Board of Education.
