

## Algebra 1 Homework: Due Monday October 14, 2013

Write a 1-2 paragraph reflection about your progress in Algebra 1 so far. Your reflection should include responses to the following questions.

1. What have you been doing in order to *learn* in this class so far?
2. What have you been doing in order to be *successful* in this class so far?
3. Do you think what you have been doing so far has been working?
4. What do you want to keep doing?
5. Is there anything you plan to change starting Monday with Chapter 3?

Please also include a reflection of your preferences. What assignments (homework or classwork) have you enjoyed the most or found most helpful so far this year? Why did you enjoy it or find it helpful?
