

# BC Calculus Homework Guidelines

- Name, date and assignment (section, page number(s), problem numbers) must be at the top of the assignment
- Only one assignment per piece of paper
- Homework is to be done in *pencil*
- Number each problem clearly
- Skip a line between problems
- Work must be done vertically
- No more than two columns per side of paper
- Must be neat and legible
- *Must write out the problem* – except for word problems
- Remember to show all steps
- Graphs must be clearly labeled
- Homework must be corrected – please do homework corrections in colored pen (not black)
- Homework will be collected in packets
- Homework collection dates will be announced in advance; it is your responsibility to have your homework packet ready to be handed in at the beginning of the period the day it is due
- When handing in homework it must be in date order (oldest on top)
- If you are in school for any part of the day, or on a field trip the day homework is collected, you must turn it in that day
