DELAWARE STUDENT HEALTH FORM – ADOLESCENT
Grades 7-12

To be completed by licensed healthcare provider:
Physician (MD or DO), Clinical Nurse Specialist (APN), Advanced Practice Nurse (APN), or Physician's Assistant (PA)

To Parent or Guardian:

In order to provide the best educational experience, school personnel must understand your child's health needs. This form requests information from you (Part I) and your health care provider (Parts I, II and III). All students in Delaware public schools must provide documentation of current immunizations and a current (within 2 years) physical examination upon school entry. A physical prior to ninth (9th) grade is strongly recommended for school year 2012-2013 and will be a requirement for school year 2013-2014.

Talk with your health care provider about important issues[1] regarding your child, such as:

- ☐ **Physical Growth and Development** (physical and oral health, body image, healthy eating, physical activity)
- ☐ **Social and Academic Competence** (connectedness with family, peers and community, interpersonal relationships; school performance)
- ☐ **Emotional Well-Being** (coping, mood regulation and mental health, sexuality)
- ☐ **Risk Reduction & Safety** (tobacco, alcohol or other drugs; pregnancy; STIs; infection; disaster planning)
- ☐ **Violence and Injury Prevention** (safety belt and helmet use, substance abuse and riding in a vehicle, driving [graduated license], substance abuse, guns, interpersonal violence [fights/dating violence], bullying)
- ☐ **Immunizations**
  - **Influenza (seasonal) vaccine** is recommended **each year** for **all** children (6 months and up).
  - **Human papillomavirus vaccine (HPV)** is recommended for all girls and boys (ages 11 or 12, minimum age 9) to prevent cancers, pre-cancers and genital warts.
  - **Hepatitis A, Meningococcal and Pneumococcal vaccines** are recommended for certain high risk groups.

Immunization Requirements for Newly Enrolled Students at Delaware Schools

GRADES 7-12:

Td/Tdap: At least 3 doses. The last dose must be given on or after 4th birthday
Students who start the series at age 7 or older only need a total of 3 doses. *A booster dose of Td or Tdap is recommended by the Division of Public Health for all students at age 11 or five years after the last DTap, DTP or DT dose was administered whichever is later.*

Polio: At least 3 doses. The last dose must be given on or after 4th birthday

MMR[2]: 2 doses. The 1st dose must be given on or after the 1st birthday. The 2nd dose must be given after the 4th birthday.

Hep B[2]: 3 doses. For children 11 to 15 years old two doses of a vaccine approved by CDC may be used.

Varicella[3]: 1-2 doses. The 1st dose must be given on or after the 1st birthday. Two doses are required for all new school enterers in: K-8th grade in 2011-2012, K-9th grade in 2012-2013, K-10th grade in 2013-2014, K-11th grade in 2014-15 and K-12th grade in 2015-2016.

[1]Based on Bright Futures: Guidelines for Health Supervision of Infants, Children and Adolescents, (3rd ed.) AAP, 2008
[2]Disease histories for measles, rubella, mumps and Hepatitis B will not be accepted unless serologically confirmed.
[3]Varicella disease history must be verified by a health care provider to be exempted from vaccination.
