

POLICY: TRANSPORTATION: VIDEO CAMERAS ON SCHOOL BUSES

The Board of Directors of West Valley School District No. 363 authorizes the Transportation Department to use video cameras on district-operated school buses for the purpose of detecting and reducing discipline problems, thus providing a safer environment for the transportation of students. Recording the transportation environment provides school officials, drivers, and parents/guardians/custodians with documentation dealing with inappropriate student behavior. Disciplinary action will be in accordance with board policy and state law.

The superintendent/designee shall prepare procedures for the use of the video equipment on buses, the authorized review process for video-tapes, and the proper disposal of tapes.
