

PANORAMA COMMUNITY SCHOOL DISTRICT
OPERATION OF BUSES DURING INCLEMENT WEATHER

Panorama buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the district and may change quickly, the best judgment will be used that is possible with the information available. The final judgment as to when conditions are unsafe to operate will be made by the Superintendent or his designee. He will be assisted by the director of transportation. Drivers and students will be notified by commercial radio when school is cancelled or temporarily delayed. When school is cancelled because of weather, all schools will be closed.
