

1) Using domain and range given, sketch a graph (There are many possible solutions)

D: $\{ x: -4 \leq x \leq 3 \}$ R: $\{ y: [2, 5) \}$ D: $\{ x: -4 \leq x \leq 3 \}$ R: $\{ y: [2, 5) \}$

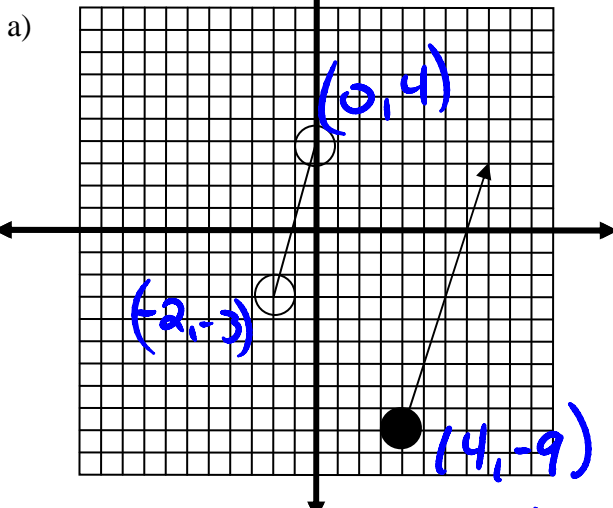

#1 version

#2 version

2) Tell the range and domain of each function using interval notation:

D: $(-2, 0) \cup [4, \infty)$
 OR
 $R: [-9, \infty)$
