## A Trip Around The World!

Read the information below to see where your friends traveled during the summer break. Use the information below to answer the questions. You'll need to use both addition and subtraction!

Ben traveled **6,919 miles** from Dallas to Cairo to see the Pyramids.

Sarah traveled **4,751 miles** from Dallas to London to go to the Warner Brothers Studio to see how Harry Potter was filmed.

Rebecca traveled **12,488 miles** from Dallas to Thailand to ride an elephant through the river like Mrs. Flanigan did.

Andrew traveled **5,598 miles** from Dallas to Rome to visit the Coliseum.

Molly traveled **6,506 miles** from Dallas to Sochi, Russia for the Olympics.

Daniel traveled **4,940 miles** from Dallas to Paris to see the Eiffel Tower.

1. How many miles did Rebecca AND Andrew travel? Hint: Add!

2. How many MORE miles did Molly travel than Daniel? Hint: Subtract!

3. How many miles did Molly AND Ben travel? Hint: Add!

4. Who traveled the farthest away from Dallas?

5. Who traveled the shortest distance?

6. What is the RANGE of miles? Hint: Subtract the shortest distance from the longest distance!

7. Who traveled farther, the boys or the girls? Hint: Add the girls miles together, then add the boys miles together. Then find the difference between the two!

Boys Miles	Girls Miles

Extra Challenge:  
How many miles did all of the students travel together? Show your work!
